ALABAMA JACKIES WIN IN HOT RACE

Virginia's Grew Second, Being but Scant Ten Yards Behind. "Britishers" Third.

"Britishers" Third.

NORFOLK, VA., April 19.—The "Jamestown Cup." for the fastest crew of rowing officers in the fleets of America, England, Germany and Austria assembled here for the Jamestown Exposition, was won to-day by the officers of the American battleship Alabama The Virginia's officers were ten yards behind for second place, and the English cruiser Roxburgh's officers were badly distanced for third. The twenty-one other ships represented in the face, which was a mile straightaway, were strung out at long intervals over the course. The time of the winners was ten minutes and one second.

When the word was given for the start of the race every war-ship in the big fleet was alive with interest. The course was laid down between the two long lines of fighting craft, with the American, English and German flagships close to the finish.

At the crack of the gun the twenty-four twelve-oared boats got off well together. The officers of the Roxburgh hit a terrific pace, and took the lead with a spurt. They held it for the first 100 yards easily, but then the Alabama and Virginia officers began to crawl up on them, rowing bow and bow. At the quarter the three boats were abreast, and that was the last chance the Englishmen had, Alabams and Virginia forged to the front, first one and then the other leading, until,

Cittler Arrest.

[Special to The Times-Dispatch.]

DANVILLE, VA., April 29.—II. L.
Williams, a local carpenter, was shot
and seriously injured this afternoon
by his wife. The shooting took place
at the home of the father of Mrs.
Williams, who about a week ago left
her husband, taking with her the two
small children. This afternoon, it is
alleged, Williams was drinking heavily and went to the home of his wife
and demanded that he be given posses,
slon of the children. Most of the relason the compliment of making her the hostess for the nation in receiving the foreigners.

The reception will take place on the battleship Connecticut, the flagship of the American fleet in Hampton Roads. The occasion will probably be the greatest social function of the expesition on shipboard, for it will be the fleet's official welcome to the foreign officers, who are the guests of the nation.

The reception will be held between the hours of 4 and 7, and guests will meet the fleet's launches at the wharr at Old Point.

Mrs. Swanson is casily at the head of things social at the expesition, and Virginian Building has already become the rendezvous for not only prominent Virginians, but for distinguished people all over the country. Its dignify and elegance of the surroundings.

Governor Swanson leaves to-day on official duties, but will return at the British flagship Good Hope, which takes place Friday, and the reception on the Connecticut Saturday.

Almshouse Committee Continues Investigation-Sensational Evidence.

Manchester Bureau, Times-Dispatch, No. 102 Hull Street.

W. B. Strickland, formerly a conductor on the Chesapeake and Ohio Railroad, died at the Memorial Hospital last alght from the effects of injuries received at the Scaboard Air Line Railway Station in Manchester yesterday afternoon at 6:35 o'clock while attempting to board a freight train. He was caught under the train and one leg was badly mashed, and was later amputated at the Memorial Hospital by Dr. C. R. Robins.

Dr. B. T Rucker, city physician for Manchester, was most emphatic last night in speaking of what he considered neglect on the part of the railroad. He said that when the man was injured Dr. C. R. Owens was called in, and did all he could under the circumstances. The agent of the company stated that it was against his orders to take any action in such cases. Dr. Rucker was communicated with by Sergean Wright, of the police, and he called up the company's surgeon. At about 8 o'clock the company sent an engine to Manchester and brought the wounded man to the city. Dr. Rucker had upon his personal responsibility had the man sent to the Memorial Hospital. He could not operate there, owing to the fact that it was against the rules of the hospital. He talked with the company surgeon, who went to the hospital, but the surgeon said that the company would not take any responsibility in such cases, and the injured man was turned over to the hospital further than the surgeon would not take any responsibility in such cases, and the injured man was turned over to the hospital further than the surgeon was the surgeon and the surgeon had not take any responsibility in such cases, and the injured man was turned over to the hospital nuthorities.

In the meantime the injured man had not received the necessary treatment. Dr. Rucker finally got Dr. Robins to go to the hospital and operate. The city physician stated last night that if it was possible under the law he would bring the matter to the attention of the court and push the case against the company, as the man had gone just two hours and a half in this condition without proper medical attention.

Atlen Suspended.

Althe Meeting of the Almshouse Committee held last night the matter of Superintendent Allen's resignation was brought up, and Mr. Allen was suspended by the committee Reference was made to the fact that although he had handed in his resignation, no action had been taken upon it, and that he was still holding the position. Thereupon Mr. Campbell moved that the superintendent be suspended, and a vote was taken and the motion carried.

Mr. Ferguson moved that City-Ser-

motion carried.

Mr. Ferguson moved that City-Sergeant Saunders be appointed temporary superintendent of the institution, and this plan was adopted. Sergeant Saunders, however, although he is now serving the meals, stated to a representative of this paper that he had been advised that under the law he could not, being already City Sergeant, held the position of superintendent of the almshouse even temporarily.

The Investigation

The committee got right down to pusiness last night and examined six witnesses, and completed the taking of the testmeony. Mr. Allen was not present at the meeting. The evidence n regard to the bill for the building of the fence around almshouse was rather imaging to him, although it is possible that he will make a satisfactory explanation of this at the next session.

All the witnesses were questioned concerning the bills which had been presented for milk and washing, and left the institution to go to the farm Topsy Jones, colored, who was inmate for several menths, was first witness called. Jones was s first witness called. Jones was shot about a year ago, and after leaving the Memorial Hospital, he was sent to the almshouse. He was questioned con-cerning how long and how often he had been to the farm of Super Intendent had been to the farm of Super Intendent Allen, and he stated that he had not as yet been discharged from the alms house, and that he was at the farm last Friday night. The committee held its meeting at the almshouse on that night, and when this witness was called he could not be found. The summons was served upon him Sunday afternoon by Captain Lapscomb, who found him at the cemetery.

Cora Henderson, colored, stated that she had never been to the Allen farm. She never was formally discharged, but simply left the institution on her own accord.

[BEDFORD CITY. April 29.—The pent-up waters of Little Otter liver this morning effected an opening through the debris of the fallen arch of the new concrete bridge that collapsed Saturday avening, and began flowing steadily late the channel of the stream on the opposite sight, thus removing the menace to the remainder of the bridge and the overflow on the adjacent lands. It is not known yet whether the present structure can be repaired or whether it will be necessary to build another one; neither has the responsibility for the accident been fixed. The loss is variously estimated. The contract cost of the bridge approximated \$30,090. As the job had been accepted by the Norfolk and Western Railway, the loss is theirs. Under any circumstances the pecuniary loss and delay in completing the double-caseking of the road is a getrous matter.
